Getting to Know Our Friends and Our Classroom

This month we will concentrate on getting to know one another and our class responsibilities and routines.

• We will make Friendship Fruit Salad to remind us of the friends we want and no Rotten Bananas! We will look at the rules God gives us (the Ten Commandments) and make our own list of Class Promises we all agree to.

- We will look at Environmental Print and realize we already know how to read labels like McDonalds, Target, and Star Wars.
- We will use our names to explore letters and numbers.
- We will strengthen our recognition of letters and their sounds.
- We will play with colors and learn to read color words and even have some color fun with some science experiments.
- We will use our fingers to understand the concept of counting by 10's and counting by 5's.

- We will introduce our Postcard Challenge to receive as many US postcards as possible this school year. We will tally the cards as they come in and place a "stamp" on the state it is from.
